SUMMARY

- Frontend Engineer with 1.3 years of experience building production-ready web and mobile applications using React.js and React Native, with strong expertise in state management and REST API integration
- Skilled in developing scalable, high-performance, and responsive user interfaces with a focus on reusable components and seamless user experience

EXPERIENCE

Frontend Developer

Jun 2025 – Present

Mannschaft Infotech

Nellore, Andhra Pradesh

- Developed 10+ responsive landing pages, 3+ official business websites, and multiple product modules using React.js, TypeScript, and Tailwind CSS
- Built and maintained a scalable Super Admin Panel with REST API integration, handling dynamic data and real-time updates
- Contributed to production-level applications including OTT platform, fitness web apps, and service-based websites
- Implemented global state management (Redux Toolkit, Context API) and created reusable components for scalable architecture
- Optimized performance (lazy loading, code splitting) improving load time by 30% and enhancing user experience
- Actively collaborated using Git (feature branches, pull requests, code reviews) and delivered continuous improvements based on team feedback

PROJECTS

EatProtein – Super Admin Panel | Live | GitHub

- Developed a multi-module admin dashboard (Shop, Fitness, Recipes, Diet)
- Implemented full CRUD operations with REST API integration
- Built reusable components, pagination, and modals for scalable UI
- Collaborated using Git workflows (branching, pull requests, code reviews)
- Handled dynamic data rendering and optimized state management for better performance
- **Tech:** React.js, TypeScript, Redux Toolkit, Context API, Tailwind CSS

Swaram – OTT Platform | Live | GitHub

- Built a fully responsive OTT landing page with API-driven dynamic content
- Implemented UI for Radio, Podcasts, Music, and WebTV modules
- Improved user experience and performance with optimized layouts
- Worked in a team using Git (feature branches, PR-based development)
- Ensured seamless cross-device compatibility with mobile-first responsive design
- **Tech:** React.js, JavaScript, Context API, Tailwind CSS

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, React Native, Tailwind CSS

State Management: Redux Toolkit, Context API

API & Networking: REST APIs, Axios, Postman

Backend / Cloud: Firebase (Authentication, Firestore)

Tools & Platforms: Git, GitHub, Vercel, VS Code

Core Concepts: Responsive Design, Performance Optimization, Reusable Components, Component Architecture

EDUCATION

PBR VITS College

Master of Computer Applications (MCA)

Nellore, Andhra Pradesh

2020 – 2022
