PROFESSIONAL SUMMARY

Frontend React Developer with 1.5 years of professional experience building responsive, scalable, and production-ready web applications using **React.js, Next.js, JavaScript, TypeScript, React Native (Expo), and Tailwind CSS**. Experienced in developing enterprise web applications, admin dashboards, business websites, reusable UI components, and integrating REST APIs. Passionate about building modern web and mobile applications with a strong focus on performance, user experience, and clean architecture.

TECHNICAL SKILLS

Frontend : React.js • Next.js • JavaScript (ES6+) • TypeScript • HTML5 • CSS3 • Tailwind CSS • Bootstrap

Mobile : React Native • Expo

State Management : Redux Toolkit • Context API

API Integration : REST APIs • Axios • Fetch API

Backend : Node.js • Express.js

Database : MySQL

Developer Tools : Git • GitHub • Postman • VS Code • Vite • Figma

Core Skills : Responsive Design • Component Architecture • Reusable Components • Performance Optimization

• Lazy Loading • Code Splitting • Authentication • CRUD Operations

PROFESSIONAL EXPERIENCE

Frontend React Developer

Mannschaft Infotech

Jun 2025 – Present

Nellore, Andhra Pradesh

- Developed responsive enterprise web applications and client portals using React.js, JavaScript, Next.js, and Tailwind CSS.
- Built 50+ reusable UI components including forms, tables, dashboards, cards, filters, modals, and navigation systems.
- Integrated 40+ REST APIs using Axios to support authentication, CMS, dashboards, reporting, and business workflows.
- Implemented Redux Toolkit and Context API for scalable application-wide state management.
- Improved application performance using lazy loading, code splitting, reusable component architecture, and optimized rendering.
- Worked closely with UI/UX designers, backend developers, and QA engineers following Agile/Scrum methodologies.
- Managed source code using Git, feature branches, pull requests, and code reviews.

PROFESSIONAL PROJECTS

Enterprise Corporate Website & Career Management System

Technologies: React.js • JavaScript • Node.js • Express.js • MySQL • React Router • Framer Motion

- Developed 30+ responsive webpages for an enterprise corporate website.
- Built a complete Career Management System supporting job postings, online applications, and applicant management.
- Developed reusable React components to maintain consistent UI across the application.

- Integrated REST APIs for dynamic content management and backend communication.
- Implemented responsive layouts, animations, and seamless navigation for desktop, tablet, and mobile devices.

Enterprise Admin Dashboard (Client Project)

Technologies: *React.js, TypeScript, Redux Toolkit, Tailwind CSS, Axios, React Router*

- Developed a scalable enterprise admin dashboard with Shop, Orders, Payments, Fitness, Diet, Franchise, CMS, Reports, and User Management modules.
- Integrated REST APIs using Axios for real-time data management, CRUD operations, and dynamic dashboard updates.
- Implemented Redux Toolkit and Context API for centralized state management across multiple application modules.
- Built reusable UI components including tables, forms, filters, pagination, modals, dashboards, and data visualization screens.
- Designed fully responsive interfaces using Tailwind CSS for desktop, tablet, and mobile devices.
- Improved application performance using React. Lazy, code splitting, and component optimization techniques.

Fitness & Wellness Platform (Client Project)

Technologies: *React.js, JavaScript, React Router, Context API, Tailwind CSS, Axios*

- Developed responsive frontend modules for Classes, Trainers, Institutes, Subscription Plans, User Dashboard, and Booking features.
- Integrated REST APIs using Axios to fetch and display dynamic application data.
- Implemented Context API for global state management and reusable component architecture.
- Built responsive, mobile-first user interfaces using Tailwind CSS and React Router for seamless navigation.
- Implemented lazy loading and code splitting to improve page load performance and user experience.
- Collaborated with designers, backend developers, and QA engineers in an Agile development environment.

OTT Platform (Client Project)

Technologies: *React.js, JavaScript, Context API, Tailwind CSS*

- Developed responsive user interfaces for Radio, Music, Podcasts, WebTV, and content discovery modules.
- Integrated API-driven dynamic content using reusable React components and Context API.
- Designed responsive layouts optimized for desktop, tablet, and mobile devices to improve user experience.
- Built modular and reusable UI components following scalable frontend architecture and best practices.
- Optimized rendering performance and application responsiveness through efficient component design.
- Collaborated with cross-functional teams using Git workflow's, pull requests, and code reviews in an Agile environment.

KEY ACHIEVEMENTS

- Delivered **30+ production-ready webpages** across enterprise applications.
- Built **4 production client applications** from development to deployment support.
- Developed **50+ reusable React components** improving development consistency and maintainability.
- Integrated **40+ REST APIs** across multiple business applications.
- Collaborated with cross-functional teams using Agile methodologies and Git workflows.

EDUCATION

PBR Visvodaya Institute of Technology & Science (JNTUA)

2020 – 2022

Master of Computer Applications (MCA)

PROFESSIONAL TRAINING & CERTIFICATION

NxtWave – CCBP 4.0 Intensive (Full Stack Development)

2022 – 2024

Certification: CCBP 4.0 Intensive – Full Stack Development

Core Training: JavaScript • React.js • Node.js • Express.js • SQL • Git • GitHub • Data Structures & Algorithms
